

I AM UNIQUE

(Chorus)

I am unique

I am unique

I am special

Just being me

(Verse)

We all have different hair

We have different colored eyes

We come from different places

Underneath the big blue sky

Some of us love science

Some of us love art

We can all play together

When we play our special part

(Chorus)

I am unique

I am unique

I am special

Just being me

I am unique

I am unique

I shine my light

For all to see

CHORUS

I am special

Just being me

I am special

Just being me
